Notes: This department also had 19 unbudgeted filled PCNs over the prior year, typically non-permanent employees paid out of existing authorization. Depending on the payroll months covered, the unbudgeted count may also include PCNs deleted prior to the selected scenario.

**The vacancy rate represents the amount of PCN vacancies a component must average to stay within budget. Components do not receive enough authorization to cover 100% of their PCNs for the entire year.

^PCN deleted in FY2019 Governor

^Seasonal employees are often kept in the payroll system even when not actively collecting a check so filled months are not displayed.

Split PCNs are funded by multiple components but for budget purposes are only counted in one component. *=split uncounted, ** = split counted.

Notes: This department also had 19 unbudgeted filled PCNs over the prior year, typically non-permanent employees paid out of existing authorization. Depending on the payroll months covered, the unbudgeted count may also include PCNs deleted prior to the selected scenario.

**The vacancy rate represents the amount of PCN vacancies a component must average to stay within budget. Components do not receive enough authorization to cover 100% of their PCNs for the entire year.

^PCN deleted in FY2019 Governor

^Seasonal employees are often kept in the payroll system even when not actively collecting a check so filled months are not displayed.

Split PCNs are funded by multiple components but for budget purposes are only counted in one component. *=split uncounted, ** = split counted.
