	Named Recipient Grant to Marine Exchange of Alaska	16GovEndorsed	600.0	0.0	0.0	0.0	0.0	0.0	600.0	0.0	0	0	0
<i>The Marine Exchange of Alaska (MEA) was established in 2000 to bring the far flung Alaska maritime community together with the common goal of providing information, communications and services that aid safe, secure, efficient and environmentally responsible maritime operations. MEA is applying 21st century technologies of satellite and Automatic Identification Systems (AIS) to provide valuable safety, navigational and logistics information to the maritime community and to provide a virtual "safety net" that also contributes daily to the efficiency of maritime operations. While there are gaps in vessel tracking coverage in some regions of Alaska, the most active maritime areas have comprehensive coverage. Efforts are now directed towards closing the gaps that remain and upgrading AIS equipment to the latest generation of radios that are more sensitive and have greater range.</i>													
<i>This project will continue the build out of Alaska's AIS, and will assist with operating, maintaining, upgrading, and expanding the vessel tracking network. The tracking network aids in the safe, secure, efficient and environmentally sound maritime operations. This MEA project will allow expansion of the vessel tracking system's coverage and capabilities throughout Alaska. The MEA is currently expanding the capabilities of the vessel tracking sites by adding weather sensors and radios that can receive and pass on digital selective calls from vessels in distress. Incorporating these added sensors will further enhance the safety of mariners operating in Alaska.</i>													
<i>In addition to state agencies (Departments of Transportation and Public Facilities, Commerce, Community and Economic Development, Fish and Game, Public Safety, and Environmental Conservation), the United States Coast Guard (USCG), coastal communities and mariners use the tracking network system to aid safe, secure, efficient and environmentally sound maritime operations in the Arctic. The system has also been used to monitor Shell's exploration operations and validate compliance with environmental protection measures prescribed in permits. The information provided by the system is also used by the USCG and state to develop risk reduction</i>

Named Recipient Grant to Alaska Air Carriers Association, Inc. - Medallion Foundation	16GovEndorsed	Inc	250.0	0.0	0.0	0.0	0.0	0.0	250.0	0.0	0	0	0
<i>The Alaska Air Carriers Association for the Medallion Foundation mission is to reduce aviation accidents by fostering a proactive safety culture and promoting higher safety standards through one-on-one mentoring, research, education, training, auditing and advocacy.</i>													
<i>The Medallion Foundation provides critical training, education, and advocacy courses to promote aviation safety for pilots across the state. The foundation provides training access to Aviation Training Devices (ATD's) to allow pilots the opportunity to practice recognition and avoidance of the causes of accidents in all extreme weather conditions, as well as a multitude of other flight simulator training options that are available at locations around the state. Additionally, they also provide education and advocacy courses for commercial and private aviation stakeholders to work together to develop and implement aviation safety strategies aimed at reducing aviation accidents in Alaska.</i>													
<i>Medallion Foundation participants transport over 90 percent of the passengers enplaned in Alaska by carriers operating in Alaska. Those same participants carry 95 percent of the cargo and mail transported within Alaska. Participants in the safety program serve 100 percent of the communities in Alaska. The voluntary participation results in a higher level of air safety for all of Alaska's communities and for residents that fly on these carriers.</i>													
<i>Since formed in 2001, the Medallion Foundation has contributed significantly to the reduction in aviation mishaps. More than 100 air carriers and 800 general aviation operators have actively participated in Medallion Foundation programs. Commercial aviation accidents have been reduced by 39 percent.</i>													
<i>For the past decade, over \$17 million from the federal government has funded the Medallion Foundation. Grant funding will provide matching funds for continuation of the program.</i>

**Alcoholic Beverage Control Board (continued)
Alcoholic Beverage Control Board (continued)**

AMD: Additional positions and associated costs
for the Alcoholic Beverage Control Board to
Regulate Marijuana (continued)

A local government may designate a local regulatory authority that would be responsible for processing applications submitted for the operation of a marijuana establishment within the boundaries of the local government. If the ABC Board fails to adopt regulations as outlined in the initiative, an applicant may submit an application directly to a local regulatory authority one year after the effective date of the law. In accord with AS 17.38.110, a local government may prohibit cultivating, manufacturing, testing, and selling marijuana through an ordinance or voter initiative. Local governments may also enact local ordinances or regulations for the governance of marijuana establishment operations as long as they are not in conflict with the initiative or regulations enacted pursuant to the initiative.

The responsibility for controlling marijuana will lie with the ABC Board until or unless a marijuana control board is established by the legislature within DCCED.

Personal Services

All positions within the ABC Board are currently working at or above capacity. With the passage of the initiative, the workload of the ABC Board has the potential to double or triple over time. The ABC Board would require an additional three investigators (one in Anchorage, one in Fairbanks and one in Juneau) and two business registration examiners to regulate the marijuana industry, similar to the duties of current staff that regulate the liquor industry. The addition of an Administrative Officer I would be necessary to support the added financial requirements.

The ABC Board currently operates and regulates alcohol with ten full-time staff plus the director and the board. The new investigator positions would be distributed in Anchorage, Fairbanks and Juneau. The supervisors of licensing, enforcement and the director are in the best position to adapt alcohol regulations to marijuana regulations. OMB approved two positions for these activities in FY2015 - one Business Registration Examiner and one Administrative Officer I. This will allow the agency to hire one Business Registration Examiner to cover the gap in the licensing section while the licensing supervisor works on regulations, and an Administrative Officer I to manage the administrative functions of the division. These hires will allow the current Records and Licensing Supervisor, enforcement supervisor (Investigator IV) and Division Director to add marijuana regulation work to their existing workload.

Travel and Per Diem

Regulations Development

The FY2015 estimate includes travel for four persons (the three ABC staff in the above justification plus one employee of the Department of Law) traveling to Washington and Colorado for three days (per trip) to study regulation and enforcement in those states. The FY2016 travel costs include funds for regional public comment meetings on the proposed marijuana regulations.

Board

The ABC Board is currently considering creating a new Marijuana Board of Directors to take on the added responsibility of controlling the cultivation, manufacture, barter, possession, and the sale of marijuana, which

<i>The AIDEA component contains both AIDEA operations and the personal services of the Alaska Energy Authority (AEA). The personal services budget is composed of the staffing costs for both agencies, and is structured to support collection of inter-agency receipts from AEA to reimburse AIDEA for AEA's payroll costs. The current fund source allocation between inter-agency receipts and AIDEA receipts doesn't accurately reflect the funding needed for AEA and AIDEA's payroll, and it hasn't been adjusted to the actual expense for at least five years. Excess inter-agency receipts and insufficient AIDEA Receipts has made it difficult to manage AIDEA's budget. This fund source change adjusts the authorization for each source and realigns the authority available for personal service expenses. This shift in authorization will have a net-zero dollar impact on AIDEA's overall budget.</i>

Specialized Legal Services and Economic Analysis Projects	16GovEndorsed	Inc	250.0	0.0	0.0	250.0	0.0	0.0	0.0	0.0	0	0	0

The Alaska Industrial Development and Export Authority's (AIDEA) strategic plan has been developed and is directed toward development projects that support the mining, oil, and gas industries. As a result, AIDEA now has many infrastructure and development projects in the pipeline that are undergoing feasibility analysis, financing option review, analysis, and legal structuring work, and/or are in various stages of construction. AIDEA's development financing projects are all complex, and they are distinct stand-alone projects; no two are alike.

Each potential development project requires highly technical analysis and legal deal structuring work to protect AIDEA's investment. Based on recent experience in the size and complexity of the projects coming to AIDEA, plus those owned income-producing assets under management, AIDEA requires authorization to expend \$250.0 in AIDEA receipts for contractual services for required State of Alaska legal services (\$150.0) and economic analysis (\$100.0) in FY2016. This increment will help to offset the \$200.0 reduction of contractual services authorization included in SB23.

Project Management to Support Portfolio Growth	16GovEndorsed	Inc	350.8	0.0	0.0	350.8	0.0	0.0	0.0	0.0	2	0	0

The Project Development and Asset Management Division (PDAM) historically accounts for over one third of AIDEA's dividend to the general fund through revenues from AIDEA's assets. These assets or projects include the Delong Mountain Transportation System, Ketchikan Shipyard, Skagway Ore Terminal and FedEx, which have a combined value of over \$300 million. The PDAM team is involved in projects or in feasibility analysis related to additional projects, which within one to five years will roughly double AIDEA's managed assets base. Their estimated value will be more than \$900 million, with AIDEA involvement at 30 to 50%. They will provide AIDEA an estimated annual income of more than \$50 million over the next 15-20 years. PDAM also provides engineering, project management, and technical support to other AIDEA divisions for projects, including the Interior Energy Project (IEP) and Ambler Road.

A project manager will ensure the continuation of effective project/asset management, as well as efficient operations and planning for old and new projects and retention of corporate knowledge. This position will be long term because the assets have 10- to 20-year lifetimes. AIDEA would fund this position with AIDEA receipts and the estimated total expense for this position request includes \$10.0 for core services and \$5.0 for one-time supply costs.

The PDAM team requests a project manager starting in FY2016 to:

- support the additional projects workload
- properly manage, operate and plan for current assets
- more effectively oversee new development projects
- better understand these projects' business cases and potential risks.

In the event that this position is not approved, the PDAM team will manage the anticipated revenue generating assets/projects growth with several constraints. First, AIDEA will be forced to rely on extensive outside contractor

Additional Authority to Align Personal Services with Actual Costs	16GovEndorsed	Inc	225.0	225.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
<i>The Alaska Industrial Development and Export Authority (AIDEA) is working on a number of high priority resource and energy projects, and has recruited highly skilled project staff to ensure high quality project development. AIDEA has also maintained a high level of employee engagement, and has a very low turnover as a result. In turn, this means that the actual vacancy rate is lower than the budget system's rate. Combined, these factors have led to higher payroll costs, that have consistently pushed or exceeded the limit of the personal services line item authority over the last few years. Because AIDEA is involved with multiple long-term projects, including Ambler and the Interior Energy Project (IEP), AIDEA expects these payroll pressures to continue. This increase to personal services authorization aligns AIDEA's total personal services authority with the anticipated need in FY2016 and will allow AIDEA to accommodate its project directed challenges related to personal services.</i>

Alaska Seafood Marketing Institute (continued)													
Alaska Seafood Marketing Institute (continued)													
AMD: Reduce Alaska Seafood Marketing Activities (continued)													
<p><i>ASMI has been very successful at increasing seafood values, which has resulted in capital investment and new dollars to the state economy. Reducing ASMI's budget may impact Alaska's standing in the global market place, and could result in lost product demand, shrinking market share, and declining prices. The farmed fish industry is increasing their promotional spend for their product which adversely affects the wild Alaska salmon market. Decreasing fish values results in declining fish taxes to the state and local economies. Additionally, the seafood industry is the largest private employer in the state.</i></p> <p><i>ASMI is widely respected by seafood producers worldwide for successful marketing efforts through advertising, public relations, product quality improvements, and creating new markets domestic and abroad. ASMI's promotional activity puts money back in the state general funds, provides jobs, and is second only to oil in generating revenue for the state. ASMI competes in a global marketplace; if Alaska was considered a country in that marketplace, the state would be the world's seventh largest exporter.</i></p> <p><i>In April 2014, ASMI's Board of Directors tasked the agency with taking over ownership and administration of Alaska's seafood certification program called the Responsible Fisheries Management (RFM) program. This program is in response to environmental groups that seek to erode the Alaska Seafood brand and influence the governance of our resources through market access control. This critical issue is important to the state as evidenced by the direct involvement by the Alaska Congressional delegation and several state executives. The demands of this program have resulted in DCCED and OMB approving a new position to manage the program in FY2015.</i></p> <p><i>ASMI has deliberately built a reserve carry forward balance of statutory designated program receipts by conservatively spending receipts from the voluntary fish tax, and carrying forward unspent receipts. The Board of Directors has previously accessed the reserve fund for special, time-sensitive projects, such as the aggressive marketing response to the 2013 record return of pink salmon. The quick response and ability to access funds for this marketing is a prime example of ASMI successfully promoting sales of huge surpluses of pink salmon, thus shoring up prices paid to fishermen and producers the following season.</i></p> <p><i>ASMI's International Marketing Program competes for a \$4.5 million USDA federal grant each year, and is in direct competition with over 100 commodity groups for these funds. There is uncertainty as to the source of these funds within the congressional budget process each year. In the event ASMI does not receive this grant, ASMI would use the reserve balance to fund the international program for one year while program adjustments could be made or alternate funding could be sought. Two-thirds of Alaska's seafood is exported, with the support of this program.</i></p>
