	The amount of statutory designated program receipts received by the Alaska Gasline Development Corporation during the fiscal years ending June 30, 2018 and June 30, 2019 are appropriated to the Alaska liquefied natural gas project fund (AS 31.25.110)											
	The Alaska Gasline Development Corporation (AGDC) assumed sole ownership of the Alaska Liquefied Natural Gas (LNG) project in January 2017 for the development of the natural gas infrastructure required to move gas from the North Slope to Cook Inlet. This project will unlock Alaska's stranded natural gas reserves, provide energy and jobs to Alaska, and provide revenues to state government through major gas sales. AGDC expects to receive investments from outside parties as it continues to develop the Alaska LNG project. Investment funding will support the project as it contracts with engineering, procurement, and construction (EPC) firms to conduct front-end engineering and design and lump-sum turn-key estimates prior to a final investment decision in calendar year 2019.
